VISHAL AGARWAL

Chief Agentic Quality Architect · QA & Automation Engineering Leader

📍 Gurgaon ✉ tayal1989@gmail.com 📞 7760982692 🔗 LinkedIn 🐙 GitHub ✍ Medium 🌐Portfolio

EXECUTIVE SUMMARY

Visionary QA Engineering Leader with 15+ years architecting quality systems across FinTech, Gaming, E-commerce, and Telecom. Pioneer in transitioning traditional QA to AI-augmented, agent-driven quality ecosystems - designing self-healing automation frameworks, agentic test generation systems, and CI/CD-integrated quality gates. Currently driving AI-first quality transformation at MobiKwik using Cursor, Claude AI Agents, and MCP to automate test creation at scale. Expert in building and mentoring high-performance QA teams with a track record of 90%+ automation coverage, 40% defect leakage reduction, and quick release cycles.

CORE COMPETENCIES

AI / Agentic QA: AI Agents, MCP, Cursor IDE, Anti Gravity, Claude, RAG (personal R&D)	**Automation:** Playwright, Selenium, Appium, REST Assured, Robot Framework	**Languages:** Java, Python, Shell
CI/CD & DevOps: Jenkins, Git, SonarQube, GitHub Actions, AWS (exposure)	**AI / LLM Tools:** LLM prompt engineering, GPT, Appium MCP, AI-assisted test gen	**Performance:** JMeter, ADB profiling, CleverTap API, load & stress testing
Test Strategy: Shift-left, self-healing frameworks, agentic test pipelines	**Mobile Testing:** Android & iOS QA, Appium, visual automation (image comparison)	**Leadership:** Teams up to 25, QA roadmaps, cross-functional collaboration

PROFESSIONAL EXPERIENCE

One MobiKwik Systems Pvt. Ltd., Gurgaon | Engineering Manager *Apr 2026 – Present*

- **Achieved 95%+ frontend (client) automation coverage** using Appium + Java + TestNG + Jenkins for Android and iOS apps; owned and maintained the full Jenkins CI/CD pipeline end-to-end.
- **Delivered end-to-end visual automation (Optics)** using Java, AI-assisted scripting, and image comparison libraries - identifying critical UI bugs invisible to functional test suites.
- **Built Pulse** - QA reporting tool auto-publishing daily EOD status to Slack by pulling live Jira data, eliminating manual status updates entirely.
- **Built Apex** - ADB profiling tool measuring cold/hot start time, janky frames, and CPU usage across devices, benchmarking MobiKwik technical performance against competitor apps.
- **Built Sentry** - a production monitoring tool that executes CleverTap APIs via REST Assured to validate business-critical reporting pivots every hour against configurable thresholds to stakeholder Slack channels.
- **Built Prism** - a structured UX benchmarking framework that evaluates MobiKwik's P0 flows against competitor apps across page transition times, tap counts per flow, UX disruptions, and end-to-end user experience quality.
- **Architecting agentic testing pipelines** using AI Agents and MCP (Model Context Protocol) to auto-generate and evolve test cases as codebase changes - reducing regression maintenance overhead significantly.

Cashgrail Pvt. Ltd. (Zupee), Gurgaon | QA Technical Manager *Feb 2021 – Apr 2026*

- **Built and led QA function from scratch** for real-money gaming apps (Ludo, Snakes & Ladders, Trump Card) - grew the team to 25 engineers with 90%+ automation coverage.
- **Designed and shipped self-healing automation framework** (Java + Selenium + Appium + REST Assured) - delivered 6-hour continuous release cycles.
- **Pioneered AI/ML testing** - tested prompt-based AI features and AI-assisted QA systems; applied RAG for framework prototyping.
- Implemented performance testing reducing API response time by 30%; enforced CI/CD quality gates via Jenkins + SonarQube.
- Reduced defect leakage by 40% through robust shift-left test strategy and automated regression coverage.
- Awarded Zupee Value Champion — Nurturing & Growth (2025); Outstanding Talent Awards (2021–24).

Snapdeal Pvt. Ltd., Gurgaon | Lead Software Engineer in Test *May 2019 – Jan 2021*

- Owned QA for AdTech and Search platform - 85% automation coverage; reduced defect leakage by 40%.
- Integrated functional + performance testing (JMeter); partnered with engineering leads on shift-left quality practices.

Orange Business Services, Gurgaon | Senior Software Engineer *Jan 2017 – Apr 2019*

- Delivered Python + Robot Framework automation for INES & Live Data Hub; built Jenkins CI pipelines enabling seamless delivery.
- International assignment - Paris, France - implemented an enterprise automation framework for global clients.

Barco Electronics Pvt. Ltd., Noida | Senior Software Engineer *Jun 2016 – Jan 2017*

- Designed OneRoom API test automation framework using Cucumber + Maven; established API contract testing standards.

Nokia Networks, Bangalore | R&D Engineer *Apr 2015 – Apr 2016*

- Automated SRT tool in Python saving ~300 manual hours/month; reduced release timelines by 25% via CI/CD adoption.

Mahindra Comviva, Bangalore | Senior Software Engineer *Aug 2011 – Mar 2015*

- Created CTAF automation framework (Python + Django) adopted across multiple projects; automated Mobiquity financial app with Sahi.
- Best Team Awards (2x) - 90% effort savings via automation. Star Talent & Best Talent Awards (2012–14).

KEY ACHIEVEMENTS AT A GLANCE

98%+ FE AutomationCoverage (MobiKwik)	**90%+** Automation Coverage(Zupee — team of 25)	**6 hrs** Release Cycle(Zupee CI/CD)	**40%** Defect LeakageReduction (Snapdeal)

EDUCATION

B.Tech. (Electronics & Communication Engineering) - Technological Institute of Textile & Science, 2011 | 76.4%

RECOGNITION & CONTRIBUTIONS

🏆 Zupee Value Champion - Nurturing & Growth (2025)
🏆 Outstanding Talent Awards (2019–24)
🌍 International Assignment - Paris, France
✍️ Published Author on Selenium, Java & Release Engineering (Medium)
🎤 Speaker & Trainer - Robot Framework, Automation Strategy
🥇 Star Performer & Best Team Awards (2x)
